

BONES

atlas
axis
body of sternum
calcaneus
capitate
cervical vertebra (not C1 or C2)
clavicle
coccyx
cuboid
false rib
femur
fibula
floating rib
hamate
humerus
ilium
intermediate cuneiform
ischium
lateral cuneiform
lumbar vertebra
lunate
manubrium
medial cuneiform
metacarpal(s)
metatarsal(s)
navicular
os coxa
patella
phalanx (phalanges)
pisiform
pubis
radius
sacrum
scaphoid
scapula
talus
thoracic vertebra
tibia
trapezium
trapezoid
triquetral (triquetrum)
true rib
ulna
xiphoid

SKULL BONES

ethmoid
frontal bone
inferior nasal concha
lacrimal bone
mandible
maxilla
nasal bone

occipital bone
parietal bone
sphenoid
temporal bone
vomer
zygoma

“PARTS” OF BONES

acetabulum
acromial end of clavicle
acromion
angle of rib
anterior arch of atlas
anterior (ventral) sacral foramen
axillary (lateral) margin of scapula
bicipital (intertubercular) groove
body (of bone)
capitulum
conoid tubercle
coracoid process
coronoid fossa
coronoid process
costal facet
costal groove
deltoid tuberosity
glenoid cavity
greater sciatic notch
greater trochanter
greater tubercle
head (of bone)
iliac crest
inferior articular process
infraspinous fossa
intercondylar eminence
intercondylar fossa
interosseous ridge
intertrochanteric crest
ischial spine
ischial tuberosity
ischio pubic ramus
lamina
lateral epicondyle
lateral femoral condyle
lateral malleolus
lateral sacral crest
lateral tibial condyle
lesser sciatic notch
lesser trochanter
lesser tubercle
linea aspera
medial epicondyle
medial femoral condyle
medial malleolus
medial tibial condyle
median sacral crest

neck (of bone)
obturator foramen
odontoid process
olecranon
olecranon fossa
patellar surface
pedicle
posterior arch of atlas
posterior (dorsal) sacral foramen
pubic symphysis
radial notch
radial tuberosity
sacral canal
sacral hiatus
sacroiliac joint
shaft (of bone)
spine of scapula
spinous process
sternal end
styloid process
subscapular fossa
superior articular process
superior margin of scapula
supraspinous fossa
tibial tuberosity
transverse foramen
transverse process
trochlea
trochlear (semilunar) notch
tubercle of rib
ulnar notch
vertebral (medial) margin of scapula

SKULL “PARTS”

coronal suture
lambdoidal suture
sagittal suture
squamosal suture

alveolar process
angle of mandible
condyloid process
coronoid process
external auditory meatus
frontal process
infraorbital foramen
mandibular notch
mandibular foramen
mastoid process
mental foramen
ramus of mandible
styloid process
supraorbital foramen (notch)
temporal process
zygomatic arch
zygomatic process
